

# John Lewis

## Replatform\_Product detail page

### UI Specification\_Module

Version 1.0  
Author: Shebul Miah

24 March 2011

## Introduction

This document outlines modules elements and annotations. For any element linked to EMC's work, please see attachment for references.

## Background

UX team is engaged in a replatform project, which is helping transfer the current website content to new ATG platform delivered in 2012. This project aims to introduce the new designs of product detail page for the ATG platform. A number of high level UX requirements are included by this project for improved usability, conversion, quality of user experience, accuracy, product detail page template usage and to implement new functionalities such as Idea Book and Ratings and Reviews.

The scope of Product detail page (Product Category 1) of EPIC project includes

- “Style” template: <http://www.johnlewis.com/118314.Style.aspx>
- “Product” template: <http://www.johnlewis.com/231078583/Product.aspC>
- “Look” template: <http://www.johnlewis.com/143587/Look.aspx>
- “Range” template: <http://www.johnlewis.com/105756/Range.aspx>
- “Spec” template: part of the 2011 projects
- Display and treatment of promotions and bundling
- Incorporation of the international project slated for 2011

Other concerns:

- Incorporation of Idea Book work being delivered 2011
- Incorporation of Ratings & Reviews work being delivered 2011

## Glossary

Standard product template – This template replaces original Style, Product, and Tech templates.

Set template - Set template replaces original Look and Range templates. Set template serves collection/range products and outfit.

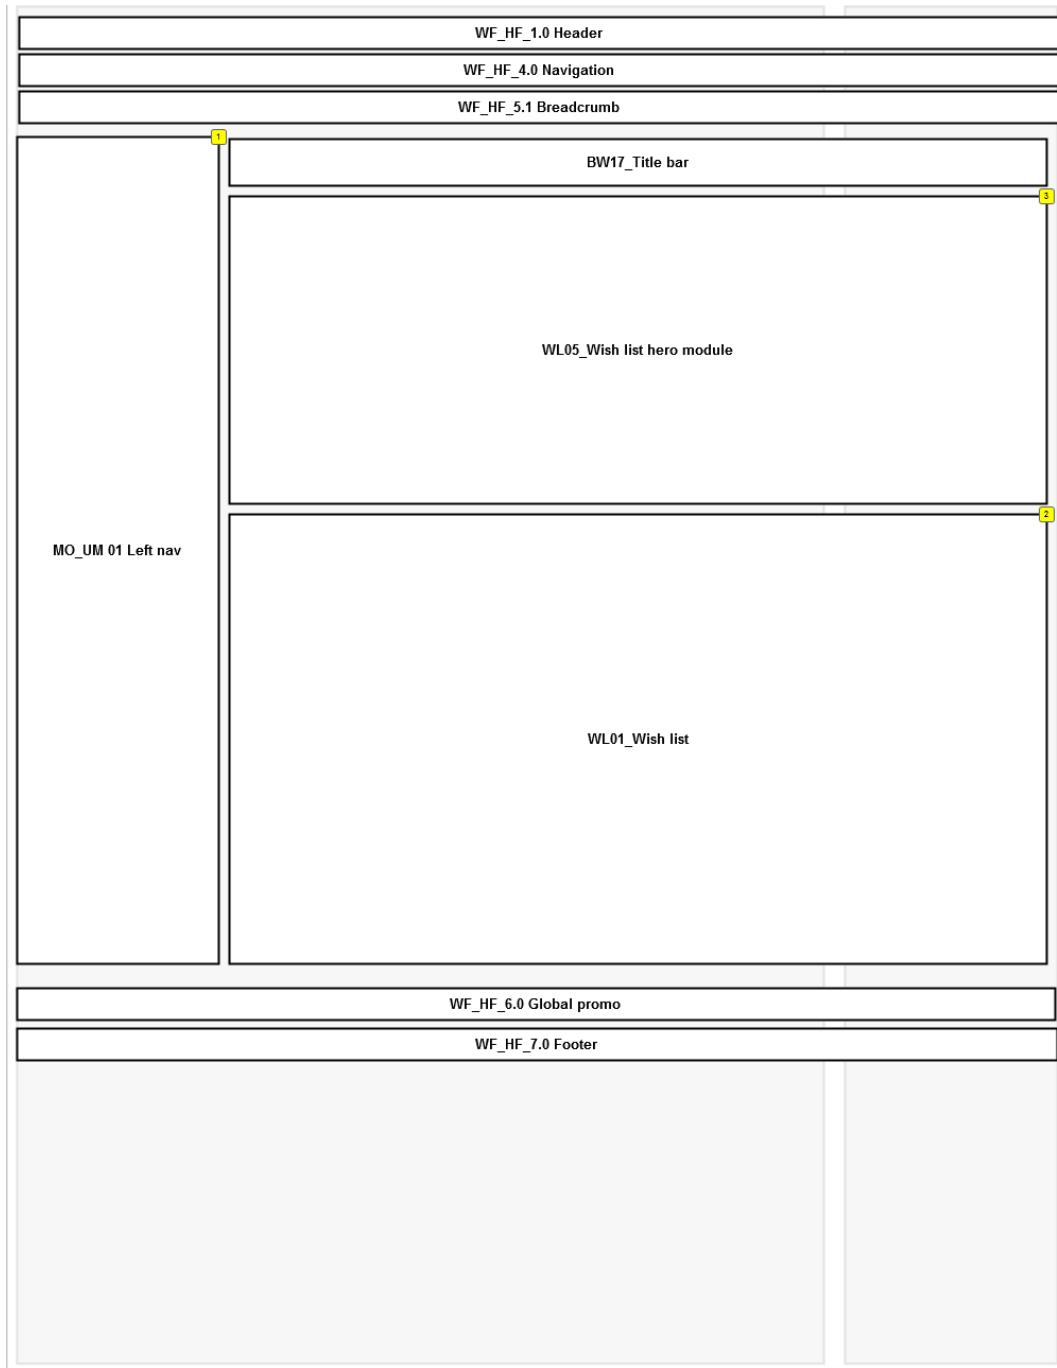

Child product – There are four child products currently used on the site: Extended Warranty, Installation service, Disposal service, and Assembly service.

Please see the project glossary for more definitions:

<https://projectepic.jira.com/wiki/display/PM/Project+EPIC+FDD+Glossary>

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
---	-------	-------------	--------	---------------	-------------	------------	-------------------	-----------------

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
1	Wish list removed text	Message informing the user that the wish list has been removed	Optional	Displays when user chooses to remove a wish list.				
2	Remove icon	Icon allowing user to remove the SKU from this wish list	Mandatory	(Mandatory in the OnMouseEnter state)	OnClick: display tooltip for user to confirm removal of SKU from wish list			
3	Single product (OnMouseEnterState)	Product showing move wish list item options						
4	Single product (OnMouseEnterState)	Product showing copy wish list item options						
5	Confirm removal of SKU tooltip	Tooltip for a user to confirm whether or not they want to remove the selected SKU	Optional	Displays when user clicks 'X' remove icon  OnMouseOut: (of SKU details area) tooltip is hidden and will not be shown again until user clicks the 'X' remove icon	OnClick: 'Yes' (if the SKU is not the only item in the wish list) removes selected SKU and displays the SKU removed state as shown below  OnClick: 'Yes' (if the SKU is the only item in the wish list) remove selected SKU and redirect to state A  OnClick: 'No' hide tooltip and do not remove SKU from wish list			
6	Move SKU link	Link allowing user to move a SKU to another of their wish lists	Optional	Displays if user has more than 1 wish list created.  For non-JS user clicks, page reloads and move options are displayed.	OnClick: show move SKU options			
7	Copy SKU link	Displays link allowing a user to copy a SKU to another of their wish lists	Optional	Displays if user has more than 1 wish list created.  For non-JS user clicks, page reloads and copy options are displayed.	OnClick: show copy SKU options			
8	Move SKU options	Wish lists a user has created. From these, user can select which wish list they wish to move the item to						

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
9	Instructional text	Text instructing user to select which wish list to move the SKU to	Mandatory					
10	Copy SKU options	Wish lists a user has created. From these, user can select which wish list they wish to copy the SKU to						
11	Wish list title	If the SKU already exists in the wish list, the title is no longer active.						
12	Duplicate SKU message	Message informing the user that they are unable to add this SKU to their wish list as it is already present	Options	Displays when the SKU the user is viewing is already present on a wish list				
13	SKU removed state	If user confirms to remove a SKU from their wish list, they image and details will all be removed and a blank 'X' and confirmation message will be displayed  There is no OnMouseEnter or OnMouseLeave interaction	Mandatory	When a user navigates away from this page, the 'X' and removal confirmation message will no longer be displayed. Instead, the items in the wish list will be shifted left so that the empty slot is filled.  If the item removed is the last in the list, when user navigates away from the page the 'X' and removal confirmation message will no longer be displayed but will not be replaced by another product as it was the last in the list				

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
14	Wish list title	Link allowing user to select a wish list to move a SKU to			OnClick: SKU is moved to selected wish list and the item moved item is displayed with an 'X' and confirmation that it has moved as shown below in the moved SKU state			
15	Numeric indicator	Displays to user the number of items in the wish list						
16	Wish list title	Link allowing user to select a wish list to move an item to			OnClick: SKU is copied to the selected wish list and is displayed in the standard roll over state with a confirmation message as shown in the SKU copied state below			
17	Wish list title	If a wish list has 50 items (maximum number) the link is no longer active.						
18	Wish list full	Message informing the user that they have reached the maximum number of items in their wish list						

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
19	Moved SKU state	If user confirms to move a SKU to another of their wish lists, they image and details will all be removed and a blank 'X' and confirmation message will be displayed  There is no OnMouseEnter or OnMouseLeave interaction	Mandatory	When a user navigates away from this page, the 'X' and SKU moved confirmation message will no longer be displayed. Instead, the items in the wish list will be shifted left so that the empty slot is filled.  If the item moved is the last in the list, when user navigates away from the page the 'X' and removal confirmation message will no longer be displayed but will not be replaced by another product as it was the last in the list				
20	SKU copied state	If user confirms to copy a SKU to another wish list, the SKU information displayed in the OnMouseEnter state is still displayed (see state B for further details)	Mandatory	When user navigates away from this page, the SKU copied confirmation message will no longer be displayed	OnMouseLeave: SKU information returns to default view of displaying only image, title and price (see state B for further details)  OnMouseEnter: (after the SKU has been copied and user has performed MouseLeave action to return to standard product view) the SKU copied confirmation message is no longer displayed			
21	SKU removed confirmation message	Message informing user that the SKU has been removed from the wish list						
22	SKU removed icon	Display feedback icon	Mandatory					
23	SKU title	Display SKU title	Mandatory					

#	Label	Description	Status	Display rules	Interaction	Ref FV No.	Additional Detail	Mandatory Field
24	SKU copied confirmation message	Message informing user that the SKU has been copied to another wish list	Mandatory					
25	SKU moved confirmation message	Message informing user that the SKU has been moved to another wish list	Mandatory					
26	Wish list name	Display the name of the wish list which the item has been moved to.	Mandatory		OnClick: redirect to state B with the relevant wish list displayed
